

“How COVID Changed the Business Landscape Forever?”

Hint: Why has Amazon been growing world-wide, despite any pandemic? It is literally the 100-pound Gorilla in its market and local businesses are going the way of the dinosaur.

I remember malls in the 1990's – they were packed – I used to hang out at the mall all day long ... Checking out “chicks” ... Do you remember the good old days? But now, sadly, they are mostly empty. Why? Times change. We all want faster, easier, lazier.

Online domination. You see ... Everything expires, Walkman's, CD's, DVD's, iPod's, even your business, if you do not adapt & adopt and change and innovate.

It's a new world out there today and I can give you the tools to fight off this new breed of business owner who has been terrorizing your income - however - if you don't do anything about it please remember in 6 months' time when you're wiped out and humiliated that I did warn you.
